一、批量删除医院设置和锁定医院设置接口

1、批量删除

```
1  //批量删除医院设置
2  @DeleteMapping("batchRemove")
3  public R batchRemoveHospitalSet(@RequestBody List<Long> idList) {
4      hospitalSetService.removeByIds(idList);
5      return R.ok();
6  }
```

2、锁定和解锁

```
1  // 医院设置锁定和解锁
2  @PutMapping("lockHospitalSet/{id}/{status}")
3  public R lockHospitalSet(@PathVariable Long id,
4                           @PathVariable Integer status) {
5      //根据id查询医院设置信息
6      HospitalSet hospitalSet = hospitalSetService.getById(id);
7      //设置状态
8      hospitalSet.setStatus(status);
9      //调用方法
10     hospitalSetService.updateById(hospitalSet);
11     return R.ok();
12 }
```
